in the village of Fiddlersburg or Security. It is situated on the west side of the road, just north of theBaltimore & Ohio railroad.

The structure is a one-and-a-half story, four-bay brick dwelling, painted red with white trim. The walls are set on low stone foundations at the front of the house which is set into a bank. The height of the foundation increases toward the rear of the structure. The bricks are laid in common bond at all elevations. There is no decorative brickwork associated with the exterior of the house.

The windows show narrow framing with most containing modern singlepane sashes. Openings at the upper level of the front elevation are in the form of gable roof dormers.

Entrances are located at the end bays of the front elevation. They are framed similarly to the windows and include transoms.

The roof is covered with sheet metal and extends for several inches beyond the end walls of the house. The eaves are treated simply. Brick chimneys with courses of corbeling at their tops are present inside each gable end.

The house is in excellent condition and is located on a property containing 0.5 acres.
